RE: FOIA request for Registered Establishment Information Specific to Glyphosate

Dear FOIA Staff:

MEY Corporation (MEY) would like to request information related to pesticide producing facilities registered with the U.S. Environmental Protection Agency (EPA). Specifically, we need information on all facilities that are registered to produce glyphosate (N-[phosphonomethyl] glycine) in any form (salt or acid) and any concentration.

MEY intends to use this information to ensure compliance with all provisions of FIFRA and to allow us to avoid delays when sourcing new glyphosate products.

MEY is requesting the full data set allowed for distribution for production year 2012 corresponding to data received by the agency by March 1, 2013.

This download should include, but not be limited to the following specific information:

- a. Product Name
- b. Product Number/EPA Registration Number
- c. Establishment Number
- d. Establishment Name
- e. Establishment (Site) Address (including Country, City, State/Province, and Postal Code)
- f. Company Name
- g. Company Mailing Address (including Country, City, State/Province, and Postal Code)
- h. Production Report Summary

Printout data for glyphosate-producing facilities should include all EPA Establishment numbers, foreign and domestic, both active and inactive. MEY anticipates that the requested data can be found in EPA's Pesticide Production report form 3540-16 for the 2012 calendar year. Additionally, MEY anticipates that

information submitted to the Agency for the registration of each glyphosate-producing facility using EPA's 3540-8 form will also be included in this report.

MEY does not believe that the information requested is protected under FIFRA Section 10 (Confidential Business Information).

MEY requests that the information be provided in electronic format, in a spreadsheet application.

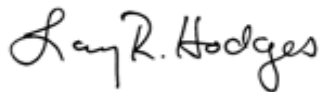

MEY is willing to incur up to \$250.00 in administrative fees to process this request. Should this fall out of line with the projected workload, please contact MEY at any time to discuss.

The glyphosate production facility information requested may be sent to the following address:

MEY Corporation
121 S. Estes Drive, Suite 101
Chapel Hill, NC 27514
Attn: Larry Hodges

MEY Corp. appreciates the Agency's help in this regard, and should the need arise, please contact Larry Hodges with any questions or concerns at (919) 932-5800, or *via* e-mail at: larryhodges@meycorp.com.

Sincerely,

Larry Hodges, Ph.D.
